

CIC Hut information

The Hut is warm with stoves in both rooms and has a drying room as well as two toilets. There are 20 alpine style bunks with mattresses. It has a large kitchen with lots of cooking pots / pans and utensils as well as cutlery and plates, cups, etc..

There is no running water. Water is fetched from an outside spring / pipe.

There is some electrical power for charging stuff but its not 100% reliable.

What you need to take

Sleeping bag (not too warm, a two - three season one is fine)

Some spare clothes, but not too much. Take some comfortable clothes for around the hut on an evening.

In addition, I usually take:

2-3 spare pair of socks and knickers (outdoors clothing)

2 spare base layers

Some crocs or lightweight shoes for the hut.

Toothbrush and paste

A small rucksack to climb with. (You will need a big rucksack to walk in with)

Other stuff you might consider taking.

Hand cleaning gel

Washing kit (there is no running water remember)

earplugs!!

A game, or ipod

Something to read

Camera

In addition to all this you will need to carry up your climbing kit and possibly a rope.

(I will try and stash some ropes up there for us the week before)

The walk to the hut is around 3-4 km and takes about an hour and a half with a heavy pack.
